London, June 11.

Yesterday arriv'd a Mail from Holland.

From the Hague Courant, dated June 10.
Rome, May 29.

THE Pope, having assist'd last Monday at the Service in the Chappel of the Quirinal, held a Congregation to consider of the Ceremonial to be observ'd towards the Chevalier de St. George. He afterwards spoke with Cardinal Gualtieri, and then gave Audience to the Cardinal de Schrombach, who notified to his Holiness the Birth of the Arch-Duchess, which he has also since done to the Sacred College. This Morning M. Salvati departed for Ferrara, to take upon him the Presidentship, having first presented to Cardinal Albani the Picture of the Chevalier de St. George, drawn at Avignon in a very rich Frame. The same Chevalier arriv'd here on Wednesday towards the Evening in great Silence, and with a small Retinue. He was met some Miles out of Town by Cardinal Gualtieri with a Coach and Six Horses. The Cardinal sat on his Left Hand, and over against them sat Don Carlo Albani and Don J. Battista Gualtieri, Brother of the Cardinal. He was welcom'd and receiv'd as a King by the Cardinal Deacon, and afterwards by the Sacred College and Princes. Which was an Honour he did not expect, having at first answer'd that he was no King. The 26th being the Festival of the Holy Sacrament, the Pope celebrated a Private Mass in the Chapel of St. Sixtus in the Vatican, and then the Grand Procession began: the several Orders of Monks with the Ministers and Servants of the Court led the way, then follow'd the Bishops in their proper Habits, then the Cardinals, and lastly the Pope seated in a Chair, and carrying the Holy Sacrament, surrounded by the Swiss Guards, and follow'd by the Horse Guards and Cocuets; the Streets being lin'd by Soldiers. The Pretender saw this Solemnity from a Balcony which was prepar'd for him, and the Pope as he pass'd by cast his Eyes upon him and then on the Host, which so affected him that he shed some Tears. Yesterday in the Afternoon he was introduc'd by Don Carlo and Don Alexander Albani to Audience of the Pope, who receiv'd him with open Arms, and talk'd with him for two Hours. And this Morning his Holiness sent him a Present of 115 Services of all sorts of fine Refreshments.

From the Imperial Army at Futack, May 29. On the 25th Prince Eugene, accompanied by some Adjutants General, departed from hence, to go by the way of Tisul and the Theys towards Banzova, which lies on the Danube over against Belgrade, to discourse with General Count Merzi, who has already with him an Army of 40000 Men. On the 27th General Baron de Petrasch set out from the Army with a Detachment to make an inroad into the Enemies Territories on the other side the Save; wherein he succeeded so well, that he not

only drove the Turks out of a strong Fort, which he demolish'd, but also kill'd 3000, and took 40 Prisoners, with many Horses and 7 Colours, and return'd to the Camp, where they set up 3 of the Colours bloody, before the Tent of Prince Eugene, and burn'd the other four all torn in the Action.

From the Imperial Camp at Versza in the District of Temeswar, May 30. The General Count Merzi, having receiv'd Orders that Prince Eugene was set out from the Camp at Futack the 25th, in order to come to Banzova, went immediately that Way. His Highness Prince Eugene arriv'd there accordingly Yesterday, and viewed the Place where a new Fortification is begun to be built, as also the Forts themselves, and gave Orders for the necessary Dispositions, and then return'd to the Camp at Futack, where new Troops daily arrive. The Magazine at Denta is by Misfortune burnt down, but they had time to save most of the Provisions that was laid up in it.

Under June 1. The Recruits for the new Regiment of Prince of Denmark of Wirtemberg, having last Night arriv'd at Futack, are gone forward for the Army. Yesterday pass'd by here in a very rich Bark follow'd by 40 others, the two Bavarian Princes, who without tarrying proceeded on their Voyage to Futack, thither Prince Eugene is return'd from Banzova.

Vienne June 3. On the 3d in the Afternoon the Count de Charolois, Brother of the Duke de Bourbon, had his Audience of Leave of the Emperor, and departed this Morning for the Army in Hungary; from whence we hear that Prince Eugene, having discouss'd with Count Merzi upon the Measures to be taken in the four Expeditions, is return'd to Futack. The said Count has made himself Master of the Town of Orava, and is now busied in building the Castle. The Turks lie with a full Number of Troops between Wirtemberg and Esseg, and are in want of many Things, so expect that we should be able to take the Field to them, the mean time they throw up many Batteries to the Save, which they furnish with Cannon, and have planted 30 Drury Cannon upon the Mountains of Ziegen to oppose our Passage. Prince Eugene will probably be at the head of the Army, and march upon Vienna.

From Vienna, June 4. The latest Letters from our Army mention that the 2nd Army of Prince Eugene to Banzova, apparently serv'd in concert with Count Merzi, who met him there, the Plans of passing the Danube at that Place; wherein it is concluded that the Army under Count Merzi consists of 40000 Men, will draw thither. Prince Eugene with his Army attempts to pass the Save. And some Letters from Peterwaradin say that a Bridge was already thrown over this last River, and that the Order of Battle was form'd, but not yet made publick. However the certain

when that Attempt will be made, is not yet talked, but 'tis taken for certain that the Operations will speedily be begun; the rather in that 'tis known the Enemy's Army between Widdin and Nicopolis is weak, and grows daily weaker by Desertion.

Copenhagen, June 8. The Envoy of Great-Britain, in Celebration of the Birth Day of the King his Master, gives to Day a magnificent Feast at a Country House nam'd Sorgenfrey; at which the King, the Prince Royal, Prince Charles, and all the Lords of the first Quality, are present. His Excellency makes also the Country People partake of this Festival, for whom there is an Ox roasted whole, and Beer and Brandy distributed plentifully, as also a Fountain running with Red and White Wine. The King's Trumpets are there to sound when the Cannon fire at every Health, drank to the Crown'd Heads and the two Royal Families.

The British and Danish Squadrons set sail Yesterday, to approach the Coast of Schoonen, the nearer to observe the Enemy, who, as we hear, are endeavouring to get out of Carelsroon. As soon as ever the Fleet was sail'd, three Skaraboots came out of Hufset, and advanced towards Steffens, where they took three small Ships laden with Goods for this Place.

From the Amst. Courant, dated June 19.

Copenhagen, June 12. Two Days ago there came into the Sound, two British Men of War, a Fire-Ship, and an Hospital-Ship, with 50 Merchant-Men, English, Dutch, Danish, Lubeckers, and others, who had assembled in the Thames to take the Advantage of this Convooy. These Men of War have taken five small, but well man'd Gottemburg Privateers, out of which 180 Men are already brought ashore. And 'tis said that upon one of them there was an English Commander, who has sail'd for some time without a Commission, and taken several Ships. Two Dutch Ships taken by those Privateers, were retaken by these 2 Men of War. One Captain Spits has also taken two Swedish Privateers, and brought them into Norway. There is nothing yet certainly spoken of the King's Journey to Holstein.

Hamburg, June 11. According to the Letters we have receiv'd from Schoonen, the last Patches of the Count de la Marq, contain'd among other Things, that the King of Sweden expresses in Truth a strong Inclination to Peace upon reasonable Conditions, but insists first upon the Release of his Ministers. The same Letters add, that since the Arrival of that Count, the Credit of Baron Gotta is very much sunk, and that of the Counsellor Nugebauken (whom the Party of the former had suppress'd and hinder'd appearing at Court) rises daily.

The Princess Maria Elizabetha of Gottorp is at last acknowledg'd for Abbess of Quedlenburg by the King of Prussia, after he had kept her out of it 5 Years. His Imperial Majesty saving for that purpose pass'd a Decree, that his Acknowledgment shall be no pre-Right the King of Prussia has to that.

The Magistrates of this City, by order of the Emperor, deliver'd after here, the 6000 Crowns that was the Right of the two Brothers Counts de Rantzau, and one another Right to it; this sum shall be given to the Eldest, who will give it to the King of Prussia to be discharge'd from his Imprisonment, he engaging by Writing to pay what more his said Majesty shall demand for his Liberty.
